Hi Ashley,

Sorry for the delayed response. We are extremely busy here in Glen Cove! The Mayor and I are were in DC last week and met with David Lloyd and some of his staff to talk about our projects. While there, they invited the Mayor to participate in the elected officials forum at the annual Brownfield's Conference in Philly. We have also been hard at work preparing our materials for the Region 2 open house presentation we are doing on the Gladsky property. Will you be attending? We hope to see you there.

As far as the Li Tungsten SMP, we have received the proposal for the scope of work but have not authorized work to begin yet. We are in the final stages of the Gladsky remediation and have been focusing on the SMP for that property.

In addition, we were finally able to witness the Nassau county sheriff's department execute the Writ of Assistance to have Doxey voluntarily vacate the premises. This was after a very arduous and protracted legal battle. We are in the final phase of completing the remedial Design Work Plan for Doxey and plan to begin remediation this summer.

We will probably start work on the Li tungsten SMP in the next couple of months. I will check with the Mayor's office on the status of the letter and get back to you.

Regards,

Kelly

Subject: Fw: Li Tungsten

Hi Kelly,

I wrote you an e-mail on 3/17 inquiring about the status of the Li Tungsten former facility SMP. I received this e-mail from Heidi below today. It appears that she is also getting some questions on the easements and SMP. Can you provide me with the current status of the 3rd SMP which is to address the Li Tungsten former facility?

Also, the EPA NY Remediation Branch section chief, Doug Garbarini, sent Mayor Suozzi a letter dated November 23, 2009 in response to an October 21, 2008 letter in which the City of Glen Cove requested that EPA evaluate the remedy at Parcel A to determine if it supports residential future use. This letter outlined a few options that would be necessary in order to allow restricted residential use at Parcel A of Li Tungsten. To date, EPA has not received a response. Can you verify that this letter has been received, and if a response is being prepared?

Please feel free to contact me with any questions you might have.

Thanks.

Subject:	Li Tungsten

Hi Ashley -

As part of work planning for the next year, I have been asked the status of the Li Tungsten sites with respect to an easement and site management plan. I know that the City of Glen Cove (City) is working on an easement for the Captain's Cove property (which includes part of the Li Tungsten site), but I do not know the status of the Easement(s) and site management plan(s) for the rest of the Li Tungsten site. With respect to Li Tungsten Parcel A, has the City ever responded to Ed Als letter dated November 23, 2009?

Thanks for you help!

Heidi
